IRVING ECO CENTRE

BOUCTOUCHE, NB • 1996

The Dune Center provides an educational focus for the study of coastal ecosystems and as a trailhead access to a network of water and land based trails. The project design is environmentally based and is a demonstration of best design development practice within the coastal zone. This project was the winner of an International British Airways "Tourism For Tomorrow" Award 1997. BDA acted as prime consultant

Client: JD Irving Ltd.
