

CRANDALL UNIVERSITY

MONCTON, NB • 1998-2011

BDA have been the site design consultants for the Crandall University Campus since its inception in 1998. Over the past 13 years BDA working with prime consultants Architects4 have prepared site layout and grading plans, planting plans and supervised construction for the Murray Hall building, 2 dormitory projects, sports fields and recently in 2010-2011, the Stultz Hall building and outdoor courtyards.

This project demonstrates BDA's capacity in designing a sustainable zero runoff project (i.e. swale drainage and holding ponds) and a functional vehicular and pedestrian circulation system.

SUSTAINABLE DESIGN
